

Amendments to the Drawings:

Fig. 1 has been amended to illustrate the step 5 of providing a memory card. (See, for example, paragraph 21, for basis in originally filed application)

New Fig. 2 has been added and illustrates in schematic form memory card 200 with processor 210, memory area 220, and display 230, and electronic device 240. (See, for example, claims 1, 6 and 16, paragraphs 24, 27 and 30, for basis in originally filed application)

New Fig. 3a has been added and illustrates the step 10a “Monitor write events, read events and power-on events.” (See, for example, claim 2, paragraph 21, for basis in originally filed application) New Fig. 3b has been added and illustrates the step 10b “Change a count associated with an event descriptor when the event occurs.” (See, for example, claim 3, paragraph 21, for basis in originally filed application) New Fig. 3c has been added and illustrates the step 10c “Store a value parameter associated with event descriptor when the event occurs.” (See, for example, claim 4, for basis in originally filed application) New Fig. 3d has been added and illustrates the step 10d “Change a running total associated with event descriptor when the event occurs.” (See, for example, claim 5, for basis in originally filed application) New Fig. 3e has been added and illustrates the step 10e “Create write and read commands.” (See, for example, claim 12, for basis in originally filed application) New Fig. 3f has been added and illustrates the steps 10f1 “Change a count associated with an event descriptor,” 10f2 “Compare the count to a threshold,” and 10f3 “If the threshold is equaled or exceeded, cause a message to be sent.” (See, for example, claim 13, for basis in originally filed application) New Fig. 3g has been added and illustrates the step 10g “Count a number of times an image file was written to the memory card.” (See, for example, paragraph 21, for basis in originally filed application) New Fig. 3h has been added and illustrates the step 10h “Count physical insertions of the memory card into the electronic device.” (See, for example, paragraph 21, for basis in originally filed application) New Fig. 3i has been added and illustrates the step 10i “Count a number of times music files were written to the memory

card.” (See, for example, paragraph 21, for basis in originally filed application) New Fig. 3j has been added and illustrates the step “Track a number of times the memory card is formatted.” (See, for example, paragraph 21, for basis in originally filed application) New Fig. 3k has been added and illustrates the steps 10k1 “Monitor an amount of memory used on the memory card” and 10k2 “Monitor an amount of memory remaining free on the memory card.” (See, for example, paragraph 21, for basis in originally filed application)

New Fig. 4 has been added and illustrates the steps 30a “Display a plurality of event descriptors,” 30b “Select event descriptor,” and 30c “Display additional usage information associated with the selected event descriptor.” (See, for example, claim 9, for basis in originally filed application)

New Fig. 5 has been added and illustrates the steps 510 “Change a count associated with an event descriptor when the event occurs,” and 530 “Display the count on the display on the memory card.” (See, for example, claim 8, paragraph 30, for basis in originally filed application)

REMARKS

The Amendment and Reply accompanies the Petition to Revive submitted herewith, and is in response to the Notice of Allowability mailed November 28, 2007, and Notice of Abandonment mailed March 25, 2008.

The Notice of Abandonment indicated that the application is abandoned in view of Applicant's failure to timely file corrected drawings as required by, and within the three-month period set in the Notice of Allowability.

Submitted herewith are corrected drawings, including an amended Fig. 1, and new Figs. 2, 3a, 3b, 3c, 3d, 3e, 3f, 3g, 3h, 3i, 3j, 3k, 4, and 5 to address the corrected drawings requirement in the Notice of Allowability to show features from the claims. The specification has also been amended to be consistent with the corrected drawings. Support for these amendments can be found at least in the original claims, and throughout the specification. No new matter has been added.

If the Examiner has any further concerns regarding the drawings, the Examiner is invited to contact the undersigned by telephone.

At any time during the pendency of this application, please charge any fees required or credit any over payment to Deposit Account 08-2025 pursuant to 37 C.F.R. § 1.25. Additionally, charge any fees to Deposit Account 08-2025 under 37 C.F.R. § 1.16 through § 1.21 inclusive, and any other sections in Title 37 of the Code of Federal Regulations that may regulate fees.

Respectfully submitted,
